01 INTRODUCTION

Tested, trusted and built for better.

Denshaj Enterprise Limited (DEL) is a 100% Kenyan-owned contractor and materials supplier, founded in 2024. We deliver building construction, civil works and bulk construction materials under a single point of accountability, from villas, apartments and offices to warehouses, schools, hospitals, roads and drainage.

Residential work. Designs and works in progress.

Our Mission

Denshaj Enterprise Limited is a Kenyan contractor and materials supplier dedicated to transforming Africa's landscape, one structure at a time. With a focus on quality, sustainability and community impact, we aim to build a brighter future through innovative construction solutions.

What we do

- Building Construction
- Design-Build
- Build-Only
- Roads & Paving
- Drainage
- Retaining Walls
- Water & Sewer Reticulation
- Ballast
- Sand
- Murram
- Cement & Steel
- Ready-Mix Concrete

OUR PROMISE

Send us your BOQ, drawings or pin-location and we will provide a quotation within 48 hours.

02 WHO WE ARE

A Kenyan company with a passion for construction.

2024	100%	5	100–200	NCA 5
Year founded	Kenyan-owned	Permanent workers	Casual workers	Building Works

01

Company Background

Founded in 2024, Denshaj Enterprise Limited is a 100% Kenyan-owned company registered as a contractor and materials supplier. We are registered by the National Construction Authority (NCA) in Category 5 as a Building Works Contractor, reflecting our commitment to excellence and local economic growth.

02

Core Disciplines

Our core disciplines are building construction, civil works and bulk materials supply. We offer comprehensive solutions for villas, apartments, offices, warehouses, schools, hospitals, roads, drainage and more.

03

Staff Strength

We employ 5 permanent workers and 100–200 casual workers. Our team is driven by a passion for construction and a dedication to delivering high-quality projects across various sectors.

04

Local Ownership

As a 100% Kenyan-owned enterprise, we are deeply committed to the economic and social development of our country. We believe in leveraging local talent and resources to drive sustainable growth.

Structural works. Foundation slab and column starter bars, with site team in high-visibility PPE.

03 OUR SERVICES

Three disciplines.
One accountable partner.

01

Building Construction

We specialise in design-build and build-only projects, constructing villas, apartments, offices, warehouses, schools and hospitals. Our team ensures high-quality construction that meets your specifications and exceeds expectations.

- Villas
- Apartments
- Offices
- Warehouses
- Schools
- Hospitals

02

Civil Engineering

Our civil engineering services include roads, paving, drainage, retaining walls, and water and sewer reticulation. We apply proven techniques and quality materials to deliver robust infrastructure.

- Roads
- Paving
- Drainage
- Retaining Walls
- Water & Sewer Reticulation

03

Materials Supply

We supply a wide range of construction materials, including ballast, sand, murram, cement, steel, ready-mix concrete and hardware. Our reliable supply chain ensures timely delivery and quality assurance.

- Ballast
- Sand
- Murram
- Cement
- Steel
- Ready-Mix
- Hardware

DESIGN-BUILD · BUILD-ONLY

Whether you bring complete drawings or need a project taken from concept to completion, we adapt to your delivery model.

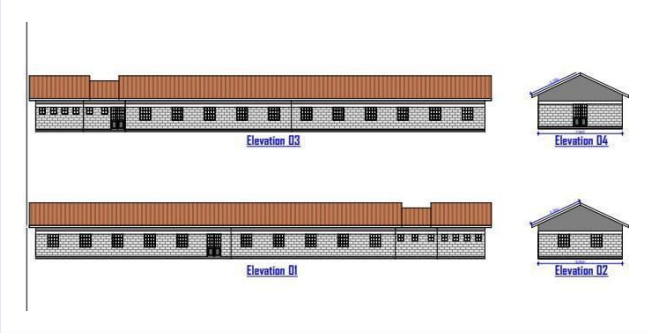

04 OUR COMPETITIVE EDGE

Single-point accountability, sustainable practice.

01

One-Stop Accountability

Denshaj Enterprise Limited offers a one-stop solution for all your construction needs, ensuring single-point accountability. Our integrated approach streamlines processes, reduces risk and improves project efficiency.

Design. Elevations for a masonry building scheme.

Construction. Stone-walled building with iron-sheet roofing.

02

Green Policy

We are committed to sustainability, having planted over 18,750 trees and implemented eco-friendly practices such as recycled wash-water and directing 30% of procurement spend to women and youth SMEs. Our green policy reflects our dedication to environmental stewardship.

05 MASSIVE PROJECTS

Massive Projects

Excavation Works | Structural Works – Formwork & Steel Fixing | MEP Services – Mechanical, Electrical & Plumbing

Featured project: Pipeline Onestop Shop, 36-unit retail stalls

Architectural render. Pipeline Onestop Shop, two stall blocks either side of a central paved walkway.

Project overview

A commercial block of 36 retail stalls arranged in two rows on either side of a central paved (cabro) walkway, with a gated entrance from the highway road, public toilets for ladies and gents, and rooftop water tanks. The scheme is shown on LR No. 6129.

The accompanying drawings set out the site block plan, floor plan, four elevations, sections and foundation details.

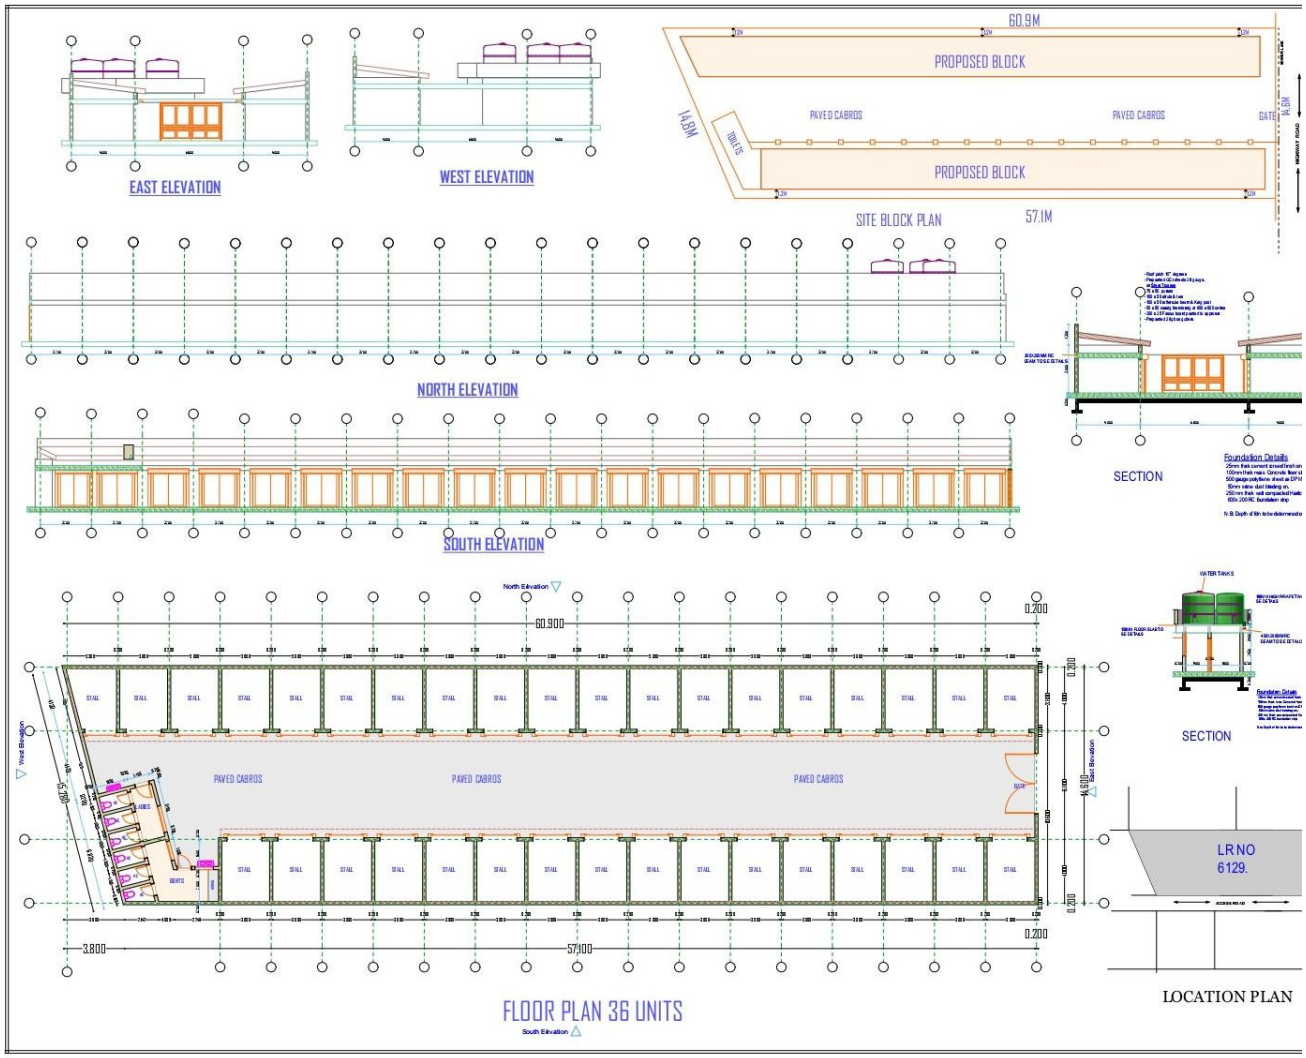

PROJECT AT A GLANCE	
Stalls	36 units
Layout	Two rows, central cabro walkway
Block length	60.9 m (per drawings)
Facilities	Ladies & gents toilets, rooftop water tanks
Plot	LR No. 6129

Floor plan, 36 units. Stalls on both sides of the paved central walkway, with toilets at the west end and the gate at the east end.

05 MASSIVE PROJECTS

Pipeline Onestop Shop
Technical drawings

Drawing sheet. Site block plan, floor plan (36 units), north, south, east and west elevations, sections, foundation details and location plan.

Site block plan

Two proposed blocks with paved cabro circulation and a toilet block at the western end.

Floor plan

36 stalls in two rows facing a central paved walkway, with a gate at the east end.

Elevations & sections

Four elevations and sections, with foundation details and rooftop water tanks.

05 MASSIVE PROJECTS

Excavation Works
Site works in progress

Earthworks, levelling and masonry progressing together on site, with plant working along the central access between the stall blocks under construction.

Earthworks. Backhoe loader clearing and levelling between masonry blocks with reinforcement starter bars.

Masonry and roof structure rising alongside the access way.

Site team and plant working along the stall block walls.

05 MASSIVE PROJECTS

Structural Works
Formwork & steel fixing

High-rise building. Multi-storey structure with arched feature windows, shown during construction.

Roof waterproofing. Torch-on bituminous membrane being laid on a roof slab.

Column formwork and casting preparation.

Foundation slab and columns. Reinforcement starter bars and column formwork on a cast slab.

MEP Services – Mechanical, Electrical & Plumbing

Our MEP scope covers mechanical, electrical and plumbing services. On the Pipeline Onestop Shop scheme this includes ladies' and gents' toilets and rooftop water tanks, as shown on the drawings.

05 RESIDENTIAL & DESIGN

Design, residential and finishing works

Architectural scale model. Building with landscaped grounds and a riverside walkway.

Interior finishing. Tiling, plastering and painting works.

Residential. Masonry homes in progress.

05 RESIDENTIAL & DESIGN

Residential design concept renders

Design render. Front elevation, window and door designs, stainless steel railings, modern finishes and rear aerial view of a residential scheme.

Residential

Villas and apartments, delivered as design-build or build-only projects.

Commercial

Offices, warehouses and retail blocks built to your specifications.

Institutional & infrastructure

Schools, hospitals, roads, drainage and retaining walls.

06 FLEET & PLANT ASSETS

Equipment to keep your project on schedule.

Excavator working in a foundation excavation.

Tipper and excavator loading at a multi-storey site.

01

Fleet overview

Our fleet of tippers, self-loading mixers and a mobile batching plant lets us deliver materials efficiently and hold tight project schedules.

02

Heavy equipment

Excavators, rollers and a grader, with tower cranes and hoists available on demand, support diverse construction needs.

03

GPS tracking & maintenance

All equipment is GPS-tracked for real-time monitoring and optimised performance. We maintain our fleet in-house to ensure reliability and minimise downtime.

ASSET	QUANTITY	CAPACITY
Tippers	18	24-ton
Self-loading mixers	6	6 m³
Mobile batching plant	1	60 m³/hr
Excavators	3	25-ton
Rollers	2	–
Grader	1	–
Tower cranes & hoists	Available on demand	

07 DAILY SUPPLY CAPACITY

Reliable volumes, every day.

Our supply chain is built for consistent material availability. Daily supply capacity is up to:

1,200 t Ballast / quarry dust	**900 t** Sand	**800 t** Murram
480 m³ Ready-mix concrete	**2,000** Cement bags	**150 t** Steel bars

Plant and earthworks support bulk materials movement.

Delivery capabilities

Same-day service in the Nairobi metro area and 24-hour up-country delivery, so your project stays on track regardless of location.

Timely and assured

Reliable supply, timely delivery and quality assurance, supported by on-site testing before dispatch.

Same-day
Nairobi metro delivery

24-hour
Up-country delivery

08 QUALITY & SAFETY CONTROLS

Verified quality, safe sites.

01

On-site testing

We conduct on-site sieve and flakiness tests before dispatch to ensure material quality. Concrete cube crushing tests are carried out for every 50 m³ pour to guarantee structural integrity.

02

Third-party verification

Third-party steel tensile tests are performed for every 20-ton batch to confirm material strength. Our NATA-certified mobile lab on site provides real-time quality assurance.

03

Safety protocols

We enforce a zero-trench-collapse policy and 100% Personal Protective Equipment (PPE) compliance. NEMA-licensed waste transport protects workers, the community and the environment.

PPE on site. Workers in high-visibility vests and helmets during column formwork.

Supervised works. Site team on a foundation slab.

OUR STANDARD

Test before dispatch. Verify through third parties. Protect every worker on site.

09 COMPLIANCE & REGISTRATIONS

Registered, compliant and accountable.

AUTHORITY	REGISTRATION	REFERENCE	VALIDITY
National Construction Authority Certificate of Registration	Building Works Contractor Category NCA 7	Reg. No. 95544/B/0925 Issued 16 Sep 2025	Until 31 Jul 2028
National Construction Authority Annual Practising Licence	Building Works Contractor Category NCA 7	Serial No. SN-643550 Issued 16 Sep 2025	Until 31 Jul 2026
AGPO (National Treasury) Certificate of Registration	Youth category, Public Procurement and Asset Disposal Act 2015	Reg. No. PVT-EYU38LZQ Registered 30 Aug 2024	Until 30 Aug 2026
Kenya Revenue Authority Tax Compliance Certificate	Taxpayer PIN P052349465S	Cert. No. KRAELD1516163225 Issued 4 Sep 2025	Until 3 Sep 2026

Additional compliance & memberships

01

KEBS

Materials certified by the Kenya Bureau of Standards.

02

KRA

Fully tax compliant, with PIN and VAT registration.

03

NEMA

Licensed as a waste transporter.

04

KABCEC & OSHA

Silver Member of KABCEC; OSHA Certificate of Compliance.

11 SUSTAINABILITY & CSR

Building responsibly for communities.

Environmental commitment

We allocate 10% of our annual profit to tree-planting initiatives, having planted over 18,750 seedlings to date. We also use dust-suppression cannons and recycled water in our operations to minimise environmental impact.

Social responsibility

We direct 30% of our procurement spend to women and youth SMEs. In addition, 60% of our foremen are promoted from within, fostering career growth and community development.
